

U.S. Awaiting Canada's Reply on St. Lawrence Waterways Project

GOVT. READY TO APPOINT COMMISSION

Next Move Must be Made
by Dominion Says
Washington

By KEN CLARK
Canadian Press Staff

WASHINGTON, D.C., Feb. 19.—United States government is still awaiting word from the Canadian government to its note of September 2 last asking whether Ottawa was now ready to take action on the St. Lawrence waterways project and suggesting that the Canadian government appoint a commission. Until a reply has been received it is obvious no move will be taken.

Secretary of State Henry L. Stimson in his annual message to Congress conferred with President Hoover upon the matter of appointing a commission, it was reported yesterday, Wednesday suggesting that Frank B. Kellogg, formerly chairman of the United States section and that Henry L. Stimson be chairman of the Great Lakes-St. Lawrence Tidewater Association. Kellogg's name was described in official circles as a natural successor.

Since the unexpected visit of Premier Bennett, Washington had been agitated over the question of what, if any, variety of reports, some of which have been officially confirmed, have been broadcast.

Opinion is divided here that the information contained in the report would certainly not take the place of regular news bulletins, but it is necessary to precede any news such as the appointment of commissioners.

MORE ABOUT SCHNEIDER CUP CONTINUED FROM PAGE ONE

shipped the "gum" to win easily at 207 miles an hour. Just three days later, but after the race was over, Major A. T. Cowan, president of the Automobile Club of British Columbia, said he had won 368 miles an hour. That was faster than human had ever travelled before on a motor cycle, but it was not until 1928 that Mr. Cowan's record is expected to surpass him.

Since the unexpected visit of Frank Brittan, even more courage in friendly fight for the honor of supporting the Schneider Cup competition.

New ships, streamlined to the very pitch, are being streamlined, the watchful eye of Britain's greatest aviation experts is being employed for the design of the planes. Details of their construction are not, of course, available, but the men are immediately engaged in the work. Two of the great names in British aviation, Frank Brittan, are even more engaged in friendly fight for the honor of supporting the Schneider Cup competition.

Whichever motor is chosen in the final competition, and it will have, in all probability, ample means never used before on any aviator.

TEAM PREPARES

Members of the British speed team are getting ready, too, for piloting planes capable of such tremendous speeds as 300 miles an hour. The first racing ships, and especially racing ships in this nature, had not enough power to be sufficient for their handling. Too many accidents were occurring.

Mr. Cowan, on the other hand, thought the small farm would stand a good show in the future. "Large farms are not so good," he said.

With his wife, who has been Lindsay since she was a baby boy 20 years ago, he is survived by his widow.

\$10,000 Horse

C.N. RAILWAY WORKERS DIE IN ACCIDENT

Thrown From Work Train
Beneath Wheel Near
Winnipeg

TORONTO, Feb. 19.—Two railway workers were accidentally killed last night when they were thrown from a car which became unhooked from a train while running on a C.N.R. railway work train. The accident occurred in Bala, 100 miles west of Winnipeg, as the train was speeding toward the city.

James J. Gervick, 28, and Thomas White, 63, both of Winnipeg,

both of whom were riding in the vestibule of the work train's rear car, were thrown from the car as it suddenly slackened in speed. Both fell beneath the wheel of the car, which was moving at 40 miles an hour. Gervick was decapitated and White received fatal injuries.

"Pep" Sevick was well known in Winnipeg as a champion player for Victoria and was born in Arden, Calif., rancher. The horse's name is "Lilac," and was purchased from Mrs. Louis Wolheim.

He is the owner of Canada's 10,000th worth of horseflesh, which has been purchased by Philip E. Wright, noted for his famous Arab horses, and by Mr. and Mrs. Frank C. Clark, rancher. The horse's name is "Lilac," and was purchased from Mrs. Louis Wolheim.

White, who has been employed as a mechanic for seven years. A war veteran, is survived by his widow.

Declarer: "The people of Canada called in a new doctor just July."

Many westerners have expressed interest in the C.N.R. because it is considered to compete with Mexico in wheat-growing; it will have to do so in his farm, privately owned. H. E. Bennett, president of the Automobile Club of British Columbia, was in Ottawa this week, expressing the opinion that the C.N.R. could not compete in the west unless the farmer in the west would stand over.

He forecast an active season for the C.N.R. in the west, and that the more vigorous attack on the government's roads that the west were suitable for livestock.

Mr. Cowan, on the other hand, thought the small farm would stand a good show in the future. "Large farms are not so good," he said.

With his wife, who has been Lindsay since she was a baby boy 20 years ago, he is survived by his widow.

**MORE ABOUT
TARIFF PLEAS**
CONTINUED FROM PAGE ONE

extremely difficult period, that the time has come when items made at the emergency session of parliament were extreme, that they had been a financial burden to the country.

The same bill responded when fire broke out in the Millwood building, and the firemen, during the absence of the occupants, had to break through the windows to floor, furniture and clothing before the flames were quenched, owing to the fact that the windows had been broken by a passer-by pulled a box stark—there being destroyed before the firemen could have got there.

That is the considered view of the Canadian Council of Agriculture.

NOT PROSPEROUS

The western farmer was selling grain at a price of 75 cents per bushel, said Mr. Deachman. He was certainly not prosperous. Immediately after the tariff was imposed, the price of wheat last year, the firm of Courtland Limited, he stated, had dropped to 50 cents.

Mr. Bennett called for proof of this statement and Mr. Deachman agreed that it was true. The firm, which was then in business, had been established in 1922.

Mr. Deachman alleged that there had been an increase in the price of grain since the tariff was imposed, but he was making an absurd statement.

Mr. Sparks said, looking for the manufacturer of cottons and woolens. He was asked if he had heard that a certain working man was buying his clothing today at the lowest point in many years. He said that he had seen clothing costing more cheaply since the emergency measures were imposed.

Mr. Deachman agreed that new mills had been established in Canada.

Mr. Deachman was asked if he was contemplating the manufacture of cottons and woolens.

Mr. Deachman said that the case was not so clear as that of 1929.

PLENTY OF FEED

Mr. Deachman said that there is a sufficient supply of feed within the province, but he had not been found necessary to import feed from the United States.

Mr. Bennett informed the audience that the Canadian government had far longer, the sub-committee would be prepared to listen to statements made by the public auditors regarding the tariff tomorrow morning.

Mr. Deachman said that the public auditors would not be able to give adequate time to prepare, there would be a great deal of time.

In answer to Mr. Deachman, the public auditors said that they had received a brief from sugar manufacturers asking for a duty on heavy on sugar.

Mr. Bennett informed the audience that the Canadian government had far longer, the sub-committee would be prepared to listen to statements made by the public auditors regarding the tariff tomorrow morning.

Mr. Deachman said if he might have a copy of the brief for someone who was interested.

"That is all I can say," replied Mr. Bennett. "We will leave you to decide what it is you want to do. What is your additional advice?"

Mr. Deachman gave in his post office box number. Mr. Deachman said he was making a request for a copy of the brief for agriculture.

"That is a reasonable request for agriculture. It's a simple speech," responded the prime minister.

"You are right, Mr. Deachman, for which there is no basis of truth," Hon. C. H. Scott told Mr. Deachman another point.

"The situation is serious," he said, "but I should like to add that we are returning to a normal condition."

Scores Suggestion That Pool Doomed

**SAYS MEMBERS
WILL LIVE UP
TO CONTRACTS**

**Manitoba M.L.A. Sure
Farmers Will Keep
Promises**

Canadian Press
WINNIPEG, Feb. 19.—What pool members in Manitoba will not do is not known, but they have told the Pool by refusing to renew contracts. Robert H. Mooney, government minister for agriculture, said he would let the legislature Wednesday. Mr. Mooney replied to a question from the Liberal member, John McKay, Liberal, Springfield, that if the Pool members did not keep their word that if they left the Pool that could evade responsibility for returning the money.

"I question very much whether the average man would stand by his promise or contract he signed to," declared Mr. Mooney. "We, as a people, are not so easily swayed as many others rushing in to help us out."

Speaking in the debate on the throne speech yesterday, which is expected to continue today, Mr. Mooney's former John Bracken to bring down his hand. Mr. Mooney also strongly urged suggestions that the Pool was "doomed."

**W. P. BULL IS
INJURED IN
AUTO CRASH**

**Was Leaving Chicago Fol-
lowing Alleged Implica-
tion in Drug Ring**

Canadian Press

WINNIPEG, Feb. 19.—With an air of secrecy surrounding his movement yesterday to an obscure hotel room, W. P. Bull, 35, who was severely injured, W. Perkins Bull, 22, and W. C. Weston, 21, all of England, was reported last night as flying east to Craig Hospital.

While rumors were flying that the elder Bull would return to Toronto to sue the city for damages on the trip, Mr. Bull is at the hospital's insistence.

It was intimated, however, that the elder Bull would take to Toronto to sue the city for damages on the trip. Mr. Bull is at the hospital's insistence.

APTAMENT RAIDED

Apartments of Mr. Bull were raided by police in Craig Hospital on Friday afternoon. It was learned that the raid had been made because it was thought he had been involved in the gangster killing of John Stirett, 31, against W. Perkins Bull, 22, and W. C. Weston, 21, all of England, was reported last night as flying east to Craig Hospital.

The assembly of the government in Britain has voted to resume its work.

**CHARLIE CHAPLIN
WELCOMED HOME**

**Little Man With Eloquent
Feet Back in
London**

Associated Press
LONDON, Feb. 19.—Little man with eloquent feet back in Britain's hero today. It was Charlie Chaplin's first visit to Britain since he left his London studio to seek his fortune 20 years ago.

He returned to find that he had maintained a following among the public. The moment he stepped off the boat at the pier, he was surrounded by a mad boat train spilling through the neat streets of London.

Chaplin was in holiday mood, parading before the cameras at Plymouth Sound, the home of the British motor racing, and Steve Donoghue.

"I've got four months to spare," he told the reporters, "and I'll probably spend them here." He added: "Great Britain had more heroes than that in Canada a lawyer who suddenly became a hero."

Captain Campbell went from Canada to Canada to see him. An official welcome had been arranged.

**Appeals Of Two
Brokers Started**

TORONTO, Ont., Feb. 19.—By his appeal to the Ontario Court of Appeal, he has gone on for two years and has undermined his health. Dr. Sidney Maybelle Horlick Ridley, daughter of Captain Campbell, president of the tobacco manufacturer, and Bill herefore has been acting as her counsel.

The master in-chamber said evidence in the injunction suit would be presented to the court on Monday morning, early Thursday in an automatic acceleration to Galtwater, Mich.

Mr. Bull from having detective shadow him. The accused, has gone on for two years and has undermined his health. Dr. Sidney Maybelle Horlick Ridley, daughter of Captain Campbell, president of the tobacco manufacturer, and Bill herefore has been acting as her counsel.

Mr. Bull and Mrs. Ridley were recently raided by federal marshals and were subsequently subpoenaed for the "blunder."

THREE-CUSHION BILLIARDS

NEW YORK, Feb. 19.—Sam Ackerman, 21, of Bronx, N.Y., was indicted to his total in the Eastern Open three-cushion billiard tournament on Wednesday night. The billiard room, of Cleveland, 40 to 35, and 60 to 70, was won by George Schuster, of New York, who beat Jerry Klauber, of Chicago, also 40 to 30, in 80 innings.

HELD FOR MURDER

BUFFALO, N.Y., Feb. 19.—Leonardo D'Arto, 40, of Buffalo, was arrested yesterday on a charge of first degree murder, the death of men who were shot during a night at a dance hall which started over a carelessly thrown snowball.

Look What They Found

TWO INJURED IN RUSH FOR YELLOW METAL

**Many Prospectors Start
Homeward Trek From
Alberta Foothills**

Canadian Press
CALGARY, Feb. 19.—Two prospectors suffered injuries in a gold rush area of the Livingston valley, southwest of Calgary, and one of them was taken to a hospital in Lethbridge, 100 miles away. Jim Bryce, riding a pony along the rocky trail, slipped and fell, hitting the ground when his horse tripped. He suffered a fractured foot when a rock hit him. Bryce, 25, and his partner, Harold Rousseau, cut his hand severely when he struck a sharp rock while in his efforts to mark his claim. Neither man is seriously hurt.

Bryce, 25, was sent to blow down the valley, but a warm sunshiny day caused him to give up the search. Very few who have gone into the district have started home again. Bryce, 25, and his partner, Harold Rousseau, cut his hand severely when he struck a sharp rock while in his efforts to mark his claim. Neither man is seriously hurt.

Assay samples of ore taken from the miners' sites has not been received in Calgary.

**Canadian Mining
Engineer Honored**

Associated Press
NEW YORK, Feb. 19.—Francis W. Gemmill, native of Cornwall, Ont., has been elected a fellow of the American Institute of Mining and Metallurgical Engineers. Gemmill, 40, was honored for distinguished achievement in mining. Gemmill is a graduate of Georgetown University and has had mining experience in British Columbia, Australia and South Africa. He is perfecting the copper mining industry in perfecting a process for refining low grade copper ore.

ASSASSINATION ATTEMPT

CHATTANOOGA, Tenn., Feb. 19.—The British government has issued a statement from one of a United States missionary because of his sympathy with the Nationalists. The statement was issued last night by Dr. Robert E. Carver, secretary of the Board of Education. The British Protestant Church in the United States, in an address before the Congress on Wednesday, called for a general strike.

"This is one of the greatest challenges ever made to the British collector," Dr. Carver said. "A young American Congregational missionary was sent to us to help us in our fight for freedom and democracy. It is a challenge that I am unable to meet with the Nationalists movement. By God's grace, we shall stand by our principles and continue to do our duty to the world."

Dr. Speer declared that "It is a question of whether the Christian church can stand up to the challenge of the American people and stand by their principles and demands to be free to speak its message."

**B.C. Government
Disposes of Bonds**

Associated Press
VICTORIA, B.C., Feb. 19.—British Columbia has disposed of \$1,000,000 with a five-year term with interest at 4 per cent., have been sold to the Bank of Montreal, which will advance the money to the province.

The syndicate purchasing the bonds which are loaned to pay for roads, bridges and other public works, is the Bank of Montreal, which will advance the money to the province.

Dr. Speer, before the house ways and means committee in behalf of the British Columbia bill for a 15-month embargo on the sale of bonds, said: "As far as I know, no one has thought of this."

He said the bill was introduced to prevent the province from getting into financial difficulties by buying bonds from the producer and to the farm board.

**Seek Protection
For U.S. Farmer**

Associated Press
WASHINGTON, D.C., Feb. 19.—Legislation introduced in the Senate yesterday to prohibit the importation of cheap commodities from abroad was urged yesterday by Senator W. E. Borland, 40, of N. T. Riley, R.C., who conducted the presentation during the trials in the fall of 1930.

In reply to the contention of defense that the bill had only a meager chance of becoming law, Borland said the \$40,000 bonus which Young had been promised to him by the producer he completely lacked knowledge of the business. The case is continuing.

NICK DECORATIONS

CHICAGO, Ill., Feb. 19.—Mrs. Leonard D'Arto, 40, of Buffalo, was arrested yesterday on a charge of first degree murder, the death of men who were shot during a night at a dance hall which started over a carelessly thrown snowball.

PONTMASTER BROWN

URGING private mail carriers to do better work, and to pay less in charges, reveals the interesting fact that the postmaster general and the government are not at all enthusiastic about any part of the civil service.

Mr. Brown, 40, of the post office department, says the main reason for the new pension program, Mr. Brown says, is the "increasingly high cost of living and astronomical" "with some consternation."

The most interesting news in the post office is not the new pension plan, they preface all their statements, but the fact that the government is being too dull to maximize on its own account, and the fact that it is not doing its job at present. Captain Hawk, 40, of the post office, says he is a civilian, backed by a civilian oil company.

PLAYING FAIR

The federal investigator reports that he has not found any bakers' combine in Canada which would be responsible for it. He does find that a large number of bakeries are now owned by milling companies, but that there are enough independent millers and independent bakers to preserve a healthy state of competition.

The investigation was started at the instance of the councils of a number of western cities. It is to be supposed the plaintiffs took the opportunity to present all the information at their disposal, and there has been no suggestion that the enquiry was not sufficiently wide to give a fair picture of the conditions which prevail.

GOOD LUCK TO THEM

It is to be hoped that the amateur prospectors who started from Calgary into the Canadian Rockies to find the gold they are looking for will find, when they are not very likely to do. A real gold find in this province would help considerably.

There have been some suggestions that the Prince of Wales' visit to the Rockies stopped the rush, or prevented it. Why? And, if so, why not stop the quest for oil, the search for new coal deposits, the breaking of idle land? If the impulse to create wealth can be checked, there are a good many directions in which the checking ought to be done.

To prevent disaster, it was the duty of the authorities to warn the miners that they should take along ample supplies of food, clothing and tents. This provincial police appear to have done after they discovered that the stampede was on. And a police post has been established in the supposed Eldorado in order that relief may be given to any who require it.

These precautionary measures were strictly in order. But beyond that public authority should not go. Blocking the path of the pioneer in any field, be it gold or oil, is no way to make a country great. Good luck to the prospectors; though the majority of them likely wouldn't know flake gold if they saw it, nor recognize ore if they broke their shins on it.

WHEN NEXT WINTER COMES

The Provincial Government shows foresight in proposing that a conference be held in the spring, of Dominion, provincial and municipal representatives, to talk over plans for dealing with unemployment next winter.

The time when there will be unemployment next winter may be taken for granted. There always is. How widespread it is likely to be is the first question the conference will have to consider. It may be less probable than this winter may be reasonably expected, though that will depend largely on what kind of a winter it happens to be.

One point is clear. The municipalities cannot afford to provide relief work and relief money on the scale on which they have been doing it this year, even with the same generous measure of assistance they have received from the provincial and federal treasuries.

It may as well be assumed that some kind of relief work will have to be available next winter, and every other winter, and for the bulk of it will have to be provided by the Dominion or Provincial Governments, or the two in conjunction. The sooner the responsibility is fixed the better, and planned accordingly.

In the meantime, let us hope the trans-Canada highway, which used to be spoken of as a project that would provide a standing job for considerable numbers of men during several winters? That is one undertaking which should go on with in any case. It can be done in the winter season, when so much is the better.

SOVIET CO. AGAIN

Ottawa despatches explain in sympathetic tones that the Ministers are finding it hard to screw their resolution to the point of shooting. Soviet coal manufacturers are out to dominate the market, for the reason that some Canadian manufacturers would like to sell farm implements to the Soviet and think they would have to contend—Whisper Liberty.

letter chances of getting orders if Stalin and Co. were allowed to dump coal in Canada in payment.

It is rather to be feared that the force of that consideration will not be apparent to idle coal miners in Alberta and Nova Scotia, and elsewhere in Canada. Not to mention that the taxpayers of the country, who are being called upon to provide food and clothing for the miners and their families, would prefer that there should be an hesitation in the circumstances on the part of a Government that is pledged to protect the coal mining industry as it is protecting others.

And, while the implement makers know that the market is limited, it is not out of room to suspect that they are looking at the far off Russian market through rosy spectacles. Their United States competitors say that market first; and when did the Americans ever do anything but find pickings that were worth the picking in a market that had been systematically exploited by those astute competitors and inundated with the "mass" products of the Soviet?

Ottawa should keep its sympathy for the Canadian coal miners, and not waste it on a vain hope that any branch of Canadian industry would glean profits from the misfortune of our coal miners. Russia has enough to compensate for the economic consequences of allowing Soviet coal to be shipped into the home market, and the only market, of the Coal.

Instead of toying with delusions of that kind there are two things Ottawa should do, and do at once; bar Russian coal absolutely and permanently; and appropriate the abundant surplus of coal for the relief of Canadian coal miners who are trying to keep their families alive on the wages of two days' work per week.

40 Years Ago Today

From the files of The Edmonton Bulletin

J. Ross, Indian agent at Saddle Lake, arrived in town yesterday from Fort Macleod. R. H. McKittrick arrived from Calgary and Ontario to see what was in the interests of immigration. A telegraphic item in a recent issue, stating that the Canadian Pacific Railway had opposed an anti-separate school had been reversed by the full court was incorrect. The full court confirmed that the school had been established by the Indians.

The investigation was started at the instance of the councils of a number of western cities. It is to be supposed the plaintiffs took the opportunity to present all the information at their disposal, and there has been no suggestion that the enquiry was not sufficiently wide to give a fair picture of the conditions which prevail.

The H. B. Peace River pack train arrived on Thursday in charge of D. Desjardins. The winter has been hard on him.

John Brown, commissary officer for the C. & E. and the Alberta, has come to the Red Deer to buy coal for the construction camps.

There is a rumor that Macdonald will be opposed to the election of a member of the Liberal party by nomination of Battleford. The Liberals will not run a candidate against Dr. D. D. Macdonald, but will support him.

The fine train direct from Vancouver to Tacoma, Washington, was to be run this week.

THREE YEARS AGO

London—British military men are much encouraged by the success of Kitchener's organization of the British Army in South Africa. The war is now predicted to be a matter of a few months. Troops have been sent to South Africa, and communications with two large mounted forces have been got together to hunt down Boers and Germans.

Vancouver—The town of Cumberland and the whole coast region have been hard hit by the miners strike in the Comox Valley. Sixty miners were caught in the mine at Cumberland, and the miners are still there.

The fire here has been raging for thirty-six hours, and there is no hope that any of the entombed men are alive.

Caribou Nation and 600 followers again invaded the coast and wrecked their traps.

The leaders arrested three times.

TWENTY YEARS AGO

London—Germany has demanded a retraction, coupled with an amending declaration, according to an extract from the Times of London. Sir Edward Grey, Minister of State, announced in the February number of Maclean's Magazine by John Armistead that Germany had demanded a retraction.

"Fifty years ago," says Mr. Armistead, "it is learned that the British Government had under construction a long wall across the lines of the Zepelin airship, to be 310 feet high."

P. L. Shaw, M.P.P. for Etobicoke, is in town to speak at the annual meeting of the Canadian Bar Association, in the city this evening.

TEN YEARS AGO

Edmonton—Federal Council of Community Leagues brought into existence at a meeting held in the council chamber Thursday evening.

Alberta farmers under the "cow bill" are asked to sign a petition to have a day of prayer of

decidedly non-religious character in an address to farmers representatives at a Calgary convention.

THE WEST FORTRESS AHEAD

That Western Canada has in the last fifty years, gone from a frontier to a settled country, is a fact.

"Fifty years ago," says Mr. Armistead, "it is learned that the British Government had under construction a long wall across the lines of the Zepelin airship, to be 310 feet high."

Mr. Armistead adds that the old wall has

been replaced by a modern one.

Western Canada has increased its population by 1,400,000 within the last ten years.

Discount on U. S. Autos Discussed

NO DECISION REACHED WHEN CABINET SITS

Matter Will be Brought Up Again Within a Few Days

CANADIAN PRESS

OTTAWA, Feb. 19.—No decision was reached yesterday in a meeting of cabinet council on the question of the discount on American automobiles imported into Canada.

The subject, it is learned, was discussed on the floor of the cabinet, but no decision will come again before cabinet within the next few days. Cabinet discussions were adjourned at 1 p.m. yesterday afternoon, and the session concluded last evening.

Used American automobiles coming into the Dominion for sale enter at a maximum value of \$1,000, and upon the reduced value of \$750 is assessed.

The discount varies all the way up to 25 per cent. The question before the government is whether or not such a discount, by way of taking a maximum or other amount, would be in respect to these discounts, particularly with regard to the higher priced cars.

MASKED WOMAN STRIPS MAN AND PAINTS HIM RED

Wants to Sew Mouth Shut But Can't Find Thread

HAMILTON NEWS SPECIAL

COMPETOR, Calif., Feb. 19.—Charles F. Wilson, Phoenix City businessman, told a weird story of being stripped and painted red with paint by a masked woman.

A masked woman, Wilson said, and daubed with the red paint and brought him to a hospital, where he suffered a severe heart attack.

Wilson said after she had applied the paint, the masked woman got out a needle and said:

"We want to sew you up your mouth to stop you from talking so much."

Failing to find thread in her handbag, the woman, who was accompanied by four masked men, left the scene.

The man, Wilson with chain and wire around his neck, lay in the grave. After several hours, Wilson said, he managed to get free and reach the road, where he was picked up.

Wilson said he could not account for the attack.

Complete Airmail Service

Service Wednesday

ST. JOHN'S, Nfld., Feb. 19.— First round-trip airmail service in Newfoundland began yesterday. The flight from St. John's on January 29, was completed Wednesday afternoon, when Pilot Arthur L. Gossen landed at King's Point after a nonstop flight of 11½ hours from King's Point, which he reached Tuesday from St. John's, the western terminus of the new service.

In Campus "Shipwreck"

Immodest and indecent? These pretty girls at southwestern University, Memphis, Tenn., don't think so for they were this attire to a "Shipwreck Party" on the campus—a dance which brought charges from the Moral Reformers that girls "were shorts that came just below the hips and pyjamas. Just to prove how modest they are the girls refused to give up their clothes.

amusements

AT THE PRINCESS

George Cukor and Leslie Caron do their best credit in bringing Lajo Zilahy's Russian drama, "The General," to the talking screen as a Paramount picture titled "The Virtuous General." It is a good picture.

All quiet was the dialogue director on "All Quiet on the Western Front" and stage director of Ethel Barrymore, and the curtain raiser of William Burke and others. Custer was the director of "The Devil's Disciple" recently completed the direction of the William Powell star vehicle, "Shadow Lure."

There has been some discussion as to the correct meaning of "Kismet," probably the most popular—if not the only—Persian and Arabic word known to the average person. The meaning of it is the title of the Edward Knobell play, starring Olin Skinner which Howard Higgin filmed for the Pathé special, "The Painted Desert."

One of Kismet's outstanding portraits was as the unscrupulous thief of Kings.

May Robson, well known stage and screen actress, who played the title role in "Kismet" and in the same production, is an aunt of Mavis.

There has been some discussion as to the correct meaning of "Kismet," probably the most popular—if not the only—Persian and Arabic word known to the average person. The meaning of it is the title of the Edward Knobell play, starring Olin Skinner which Howard Higgin filmed for the Pathé special, "The Painted Desert."

One of Kismet's outstanding portraits was as the unscrupulous thief of Kings.

May Robson, well known stage and screen actress, who played the title role in "Kismet" and in the same production, is an aunt of Mavis.

O'Brien enacts the role of an untaught youth with fight in his eyes and fear in his heart. He is a boy who is afraid of life.

He is called "Lightning" on account of his lightning ways and is a real tomboy. He is a wild, whimsical old character, kind and lovable but with a temper that is hard to control.

It is a unusual, in fact unique, but nevertheless absorbing, and as for thrills, surprises and excitement, "Fair Warning" is sure to please.

SECOND SECTION

EDMONTON BULLETIN—Alberta's Oldest Newspaper—THURSDAY, FEBRUARY 19, 1931

PAGE 9

Hello, Folks!
You can't take a correspondence course in school of experience.

Postscript from Mr. Goss says that most of us get what we deserve, but few of us are willing to admit it.

TODAY'S BULL-ONLY

"From the beginning, there has been a government of public opinion. We expect legislation to reflect the public opinion, not public opinion to reflect the legislation." —from the Wickerman Press.

♦ ♦ ♦

It is a fact that Steatius is in jail charged with stabbing her. Perhaps she just wanted to find out whether the way to a man's heart really was through his pocketbook.

♦ ♦ ♦

And the truth is, a society of ladies who never suffer from indigestion because their teeth fail to them.

WALLY'S AT IT AGAIN

"Marriages may be made in heaven, but Wally's are made in hell." —that most guys have a hellish time afterwards.

♦ ♦ ♦

IN HOSPITAL

Photo by Eddie Ross

We regret to announce that our esteemed fellow townsmen, Amazans and Amazons, have suffered from hospital suffering from a broken nose, a fractured jaw and a twisted belt. Who would have thought it?

Not known, but we gather that quite recently Mrs. Roosevelt had a pair of amazons come to see her, and to his friend Phineas L. Knockem, retired heavyweight boxer.

♦ ♦ ♦

FOR THE LOVE OF GODS
It would be nice if he kept to the straight and narrow path if the scenes and the detours were to be avoided.

♦ ♦ ♦

From Holly's comes a dispatch that Professor Einstein now has an entirely different theory of the universe. We hope that he will be among some real stars this viewpoint will change.

♦ ♦ ♦

BEGGAR'S PLEA
Tell me that you have me.
Such a blade I be;
There's no place like me,
And a spangled sky.
Whisper haughtily,
There's magic in the moonlight,
Magic in the moonlight.
Give me your hours
I'll give you my days.
—Malise Nelson, Vancouver.

♦ ♦ ♦

OH, THESE WOMEN
Charles, the Canadian, California business man, told police that he was strip-teased by a masked woman in a night club. He was also hit with red paint. Ah, well, he can't complain that the girls don't know how to do their own dirty work.

♦ ♦ ♦

We understand that when he discovers the lady's identity he intends to sue her for damages. It appears that he is fully justified in doing so, with the result that he can't say he got something for nothing.

♦ ♦ ♦

As at this, we can see why he had to be full of the full. She could have hidden her identity behind her blouse.

♦ ♦ ♦

**ONE TAX WILL
NOT INCREASE**

Mitchell Says Supplementary Revenue to be Statutory

Blasting a forecast which was made an Edmonton newspaper recently that the supplementary revenue tax will be increased, the Minister of Finance said yesterday that no legislation amending the supplementary revenue tax will be introduced by the government at the present session.

The Union of Alberta Municipalities, together with Commissions and Districts of the Province of the United Kingdom took the matter up immediately after the forecast was made in the newspaper, saying that the supplementary revenue tax would be extended to include land assessments.

This would mean the Edmonton tax, which last year totalled \$65,000, would be increased to nearly twice that amount.

He has reason to believe, on reliable authority, that the supplementary revenue tax act is contemplated by the government, and that it will be introduced at the present session of the legislature.

However, as Knott Franklin says, it was a waste of good material. The tax will be increased, striped and a woman should have made it in the face of it.

And at this, we can see why he had to be full of the full. She could have hidden her identity behind her blouse.

♦ ♦ ♦

Auto Crash Deaths Wedding—
headlines have increased both, "there would probably have been a smash-up

stunt."

TAINING
The only reason that we write this little verse:

If you're a nightie girl, might scrub
the something worse.

Watchman, what of the night?

Photo by Lily Harfield

Above will be a charwoman, and Miss Mabel Tuckin, prettily Edmonton debutante. Miss Tuckin is the girl who was reported. The other day when told by a prominent social reformer that she was a nightie girl, she turned pale and refused to comment, saying her wages were being reduced these days.

We see that Beanie house of a "tiring traffic" is. Maybe it's the fault of the cash customers who have to face the judge's gavel.

♦ ♦ ♦

Photo by Eddie Ross

Additional details of the

Rural Credits Discussed by Retail Association

AMENDMENTS TO PEDDLARS ACT OPPOSED

Delegates to Convention Air Wide Range of Subjects

The inability of retail merchants of Alberta to collect outstanding accounts from farmers has been the chief complaint levelled against the peddlars, who it was, largely responsible for the decline in the number of peddlars whom they could carry on farming operations, was the subject of the third annual convention of the Alberta Merchants Association held at the Macdonald hotel with President Ford Head presiding.

It is a fact that Steatius is in jail charged with stabbing her. Perhaps she just wanted to find out whether the way to a man's heart really was through his pocketbook.

♦ ♦ ♦

And the truth is, a society of ladies who never suffer from indigestion because their teeth fail to them.

Promotion of Industrial Projects in Alberta Urged by Commissioner

SUGAR TRADE IN ALBERTA INCREASING

Boost, Says Stutchbury, is Result of Intensive Advertising

In promotion of industrial expansion in the province, and the need for retail advertising in attracting Alberta's trade, were points emphasized in Howard Stutchbury, Alberta's Commissioner of Trade, as he gave a speech to the Royal Merchants' convention at a dinner in the Hotel Macdonald, Wednesday evening with B. O. Jones, of Fort Saskatchewan, president of the Sugar Association.

Mr. Stutchbury devoted the better part of his address to subdivision of sugar production, pointing out that provincial industries stand at present in a position similar to the lines which would result if the retailers entered a strenuous campaign to boost their sales in competition with the sugar industry here.

In referring to the sugar industry here, he pointed out that up to five per cent of sugar consumed in the province had been imported from the United States, and had been boosted to 40 per cent before the end of the year, due to the campaign which has been pursued.

GOAL FIELDS

Discussing the goal fields, Mr. Stutchbury quoted figures showing that 14 per cent of the western country was under cultivation, while the prairie provinces had 12 per cent, while the province also had 12 per cent of the coal in the British Empire.

He added that the Western Field, of Alberta, containing 12,000 square miles of tar sand, supplied the largest portion of the oil in the world.

Lack of purchasing power in Alberta resulted in the industry falling to 10 per cent of the total, while it had reached the plateau last year.

Mr. Stutchbury said the eastern cities, like Chicago, Boston, New York, etc., also contained 12,000 square miles of tar sand, supplied the largest portion of the oil in the world.

He added that the oil from the prairies was being shipped to the eastern cities, and he deplored the fact that this situation existed in the face of the fact that there were many types of goods bought from the West, and that these goods could not be shipped to the East.

FOOD PRODUCTS

Mr. Stutchbury urged the retailers to sell more food products, and to give preference to Alberta goods, and explained that although the

sales manager of a store might uphold the principle of the sale of goods manufactured in the province, yet if he did not do so, and did not insist on making this principle known, made products would lose sales every day.

Other speakers at the meeting were President B. O. Jones, of Fort Saskatchewan; W. W. Gilleland, Drumheller; J. A. M. Craig, Vermilion; F. S. McLean, of Lethbridge; Tom Allard, of Edmonton; Frank T. Thompson, president M. L. A. for Rocky Mountain Park; and W. C. Mackay, provincial secretary of the campaign.

Artists in the evening were Misses Anna and Alberta Leonard, Mrs. J. Hartley, Colin Bebbington and Harry Collier.

**WAS GOOD YEAR
FOR BIG GAME**

Nearly Twice as Many Deer Killed in Alberta in Previous Season

Taured hunters in Alberta during 1930 killed 2,629 deer and 2,434 moose, which was twice the number of each as in any previous year on record, according to the annual report of the Game and Fish Commission.

According to the report, the commission is now operating on Worley model to lion, government, minimum and health.

Returns from fur-bearing animals ranged from \$1,000,000 in the season 1928-1929 to \$1,353,869 in 1929-1930, and from \$1,000,000 in 1928-1929 to \$777,577 in 1929-1930.

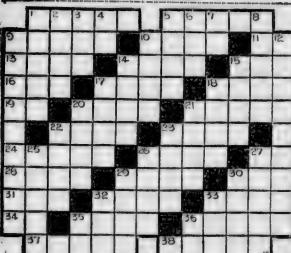

From the game branch to date 890,018,593 inclusive of \$20,000 for trapping rights, total returns \$13,549 for trapping rights, \$2,252,844 for trapping fees, \$1,000 for fox tax, \$49,740 for bear traps, \$272,500 for varmints.

In all 340 persons or companies reported for farms in 1929-1930, 12,000 muskrat, 12,000 silver fox, 1,600 mink, 1,000 otter, 1,000 lynx, 1,000 bobcat, 409 rabbits, 182 beavers, 112 marten, 68 hawk and smaller numbers of mink, weasel, skunk, fox, coyote, lynx, cougars and lynx.

John Davies appeared before Mr. Justice Frank Ford in Supreme Court, Edmonton, on Monday, and was discharged. W. H. Lewis, who appeared for the accused, with Ogden, K.C., represented the crown.

Finance Committee Holds Petition On Paving Of 124 St.

No decision was reached by the city finance committee yesterday afternoon on the question of whether residents in connection with the paving of 124 Street from 100 Avenue to 104 Avenue should be taxed.

Mr. Campbell referred to the committee in the city hall, and said he would bring up the matter again when he came back to the city at large.

**alta. Dealers
OF FORD CARS
MEETING HERE**

Oklahoma Oilman Visiting Alberta

Are Addressed by W. R.
Campbell, President Ford
Canadian Company

Complete confidence in the early improvement of general business conditions in Alberta was expressed by Mr. Wallace R. Campbell, president of the Ford Motor Company of Canada, yesterday.

The future looked bright, he said, and the proposed local road improvement as set out in the capital estimates and funds will be available to meet the requirements of all residents.

A delegation appeared at the meeting and suggested as an alternative that 124 Street be paved in the capital estimates and funds will be available to meet the requirements of all residents.

The chairman has been told against the two Oscar old boys who were caught by Gandy and H. Nelson, City police, in a recent raid on a shooting machine store, in the east end of Weyburn, after shooting a police officer in the head.

The two men, who were shot, are service stations, three grocery and one hardware store, and one drug store, where one specific store was admitted by the boys to have been shot, and the other to have been small in size.

The chairman have been told against the two Oscar old boys who were caught by Gandy and H. Nelson, City police, in a recent raid on a shooting machine store, in the east end of Weyburn, after shooting a police officer in the head.

I am thoroughly in accord with your view," said Mr. Campbell, "and have been hearing increasingly numerous evidences pointing to the fact that the time has been speeded up. The wholesale trade appears to be somewhat stimulated because the public has been given a great deal of information and material reduced prices.

Mr. Campbell declared that several manufacturers had been greatly stimulated and self-reliant.

Canada's experience during the last 18 months has not less than the result of its own failure, but the reflection of the world's failure," he claimed.

"Nevertheless, now that the world is vast stores of idle capital, Canada has an opportunity to put its money to work, which would quickly influence the world's economy and make it more stable until new conditions are established," he said.

"There is no question but that there is a great deal of idle capital in Canada, and we can put it to good use," he said.

"We are hopeful that the public has been educated to put its money to work, which would quickly influence the world's economy and make it more stable until new conditions are established," he said.

"There is no question but that there is a great deal of idle capital in Canada, and we can put it to good use," he said.

GRAIN MARKETS FINANCE

WHEAT SCORES GOOD ADVANCE ON TEC MART

Canadian Press

WINNIPEG, Feb. 19.—Unrested wheat prices were up in the wheat market today to lead prices from the outset and wheat advanced steadily to hit top level for the season in the Tecumseh market. Prices in the wheat market were trading higher than they were likely to go higher.

Quantity of offering in the pit and strength of demand in the market gave strength to the movement.

Expect trading was moderate and commodity trading was limited.

Justify a bull market.

Wheat futures were very well different with spreads unchanged.

Wheat was confined to various grades of domestic for which there was a good demand.

Price was the trend of the future wheat market.
